

Paul Griffin, Research Fellow

Research is concentrated on experimental investigations in atomic physics and quantum optics. A significant research interest is in quantum coherence and quantum information for development of scalable quantum simulators. Further research is being conducted in developing atom interferometry. The latter is guided by the goals of atomic optics sensors based on quantum gases for high accuracy inertial and gravitational measurements.

Department

Department of Physics

Institution

University of Strathclyde

Address

Dr. Paul Griffin,
Department of Physics,
John Anderson Building,
107 Rottenrow,
Glasgow G4 0NG,
U.K

Tel

+44-(0)141-5484231

e-mail

paul.griffin@strath.ac.uk
