

Xu Wang, Senior Lecturer

Dr. Xu Wang is a Senior Lecturer in EPS, Heriot Watt University. His research interests include fiber optic communication networks (optical code division multiplexing, optical packet switching), semiconductor laser, integrated photonic devices and fiber optic signal processing. His group is working on novel photonic network based on optical code technology (collaborating with Osaka University and NICT of Japan, and Rome University, Italy) and integrated photonic devices for optical communication and optical signal processing applications (collaborating with Chinese Academy of Science).

Department

School of Engineering and Physical Sciences

Institution

Heriot Watt University

Address

Earl Mountbatten building
Riccarton,
Edinburgh
EH14 4AS UK

Tel

+44-131-451-3775

e-mail

X.Wang@hw.ac.uk
